IMM WELCOMES CARLSBAD MEDICAL CENTER HOSPITALIST PROGRAM

(Carlsbad, N.M.) October 1, 2015 – As of October 2015, Island Medical Management provides the Hospitalist program of Carlsbad Medical Center with physician management, leadership, staffing, coding, billing, and revenue cycle management services.

"IMM is excited to bring more highly trained and board certified physicians to Carlsbad Medical Center as Hospitalist physicians. As members of the medical staff for the last 3 years in the ED, we were delighted to have the opportunity to expand our role at this hospital and in this community. We look forward to improving the inpatient experience and becoming a fixture in this hospital and others nearby while remaining actively involved in the communities we serve in Southeast New Mexico," says Dr. Ryan S. Nagy, CMO of IMM's Hospitalist division.

Carlsbad Medical Center---an affiliate of Community Health Systems---is a JCAHO accredited acute care hospital located in the Chihuahuan Desert and Pecos River Valley of New Mexico. The 115-bed facility hosts inpatient, outpatient, diagnostic, surgical, and emergency services. The 13-bed, Level III Emergency Department at Carlsbad Medical Center sees an annual volume of 24,000 patients.

Island Medical Management (IMM) is a clinically led, physician owned, and privately held organization with over 20 years of management experience. IMM's unique model offers every advantage of a local community based group, backed by the resources of a national organization. The group currently partners with more than fifty hospitals throughout seven states to serve 1.2 million patients annually. For more information, visit <http://www.IMMH.com>.
