#### IMM WELCOMES EMERGENCY MEDICINE PROGRAM AT HILLSDALE COMMUNITY HEALTH CENTER

(Hillsdale, Mich.) July 28, 2016 – As of October 2016, Island Medical Management (IMM) will provide physician management and staffing services to the emergency department of Hillsdale Hospital, a community health center located in Hillsdale, Michigan.

Hillsdale Hospital is a small but progressive rural healthcare facility serving not only the community of Hillsdale, but patients from the bordering states of Ohio and Indiana. As a leader in health services, the facility encompasses the healthcare needs of their patient community utilizing state-of-the-art technology. As their motto states, Hillsdale Hospital is, "Large enough to be of service... small enough to care."

The recently renovated emergency department provides care to approximately 25,000 patients per year, and hosts 47 acute care patient beds, 39 skilled nursing facility beds, and the 10-bed Dempster W. Muffitt Center for Psychiatric Care. The technologically advanced center utilizes a 64-slice CT scanner and MRI, state of the art lab equipment, and the most modern critical care and emergency department machines.

"IMM is pleased to expand our relationship with patient communities in the state of Michigan. We are excited at the opportunity to partner with the physicians and medical staff of Hillsdale Hospital, and look forward to improving the experience of patients seeking treatment within the emergency department," says Dr. Donald Brock, DO, FACEP, Regional Medical Director of IMM.

Island Medical Management (IMM) is a clinically led, physician owned, and privately held organization with over 20 years of management experience. IMM's unique model offers every advantage of a local community based group, backed by the resources of a national organization. The group currently provides services to over 80 hospital programs throughout the United States, with more than 2 million patient encounters each year.
